The company's intent is to protect bar owner's profits by determining inventory loss and establishing a methodology to manage the shrinkage. Once the problem areas are identified and with cooperation of the owner we will implement a customized strategy to reduce losses, increase profits and maintain an acceptable loss to profit ratio. This company offers entrepreneurs and business professionals the opportunity of engaging in a franchise system that guarantees first year revenue. This is a solution based enterprise established in 2006 to be the benchmark of liquor control and inventory auditing systems, along with a technology partner a system was developed. The system was based on the BarVu platform, a technological system that has assisted restaurateurs in identifying and reducing inefficiencies, closing the gaps and tracking multiple lost revenue streams.
